

STEPHENS MECHANICAL CORP

MILLWRIGHT ERECTORS AND FIELD SERVICE MAINTENANCE

SERVICES

Services include:

- Field Service Installation & RegROUTS
- Maintenance, Repairs & Overhaul
- Shop-based Repair & Overhaul
- Dial or Laser Coupling Alignment
- Laser Internal Alignment
- Laser Bore Alignment
- Laser Sheave Alignment
- Laser Flatness
- Component Repair
- Part Sales
- Field Machining

We offer the following Services and More:

Throughout California and the West Coast, Stephens Mechanical is your source for field maintenance and shop repairs, equipment installation and overhauls, redesigns, rigging, plant relocation, laser aligning, grouting, leveling and more. Our millwrights are safety trained, experienced for your specific job requirements.

Our millwrights install, maintain and repair all types of industrial & mechanical equipment; including:

- Pumps
- Compressor
- Turbines
- Blowers
- Gearboxes
- Conveyors
- Material Processing Equipment
- Fabrication (on-site or shop)

We provide:

Onsite repair, maintenance and installation for rotating and reciprocating equipment during shutdowns/outages or part of routine maintenance. We can replace bearings, seals, couplings, gaskets, change oil, diagnose issues, install/remove motors, re-grout machinery bases, onsite machining, and welding.

Let us manage the entire maintenance project.

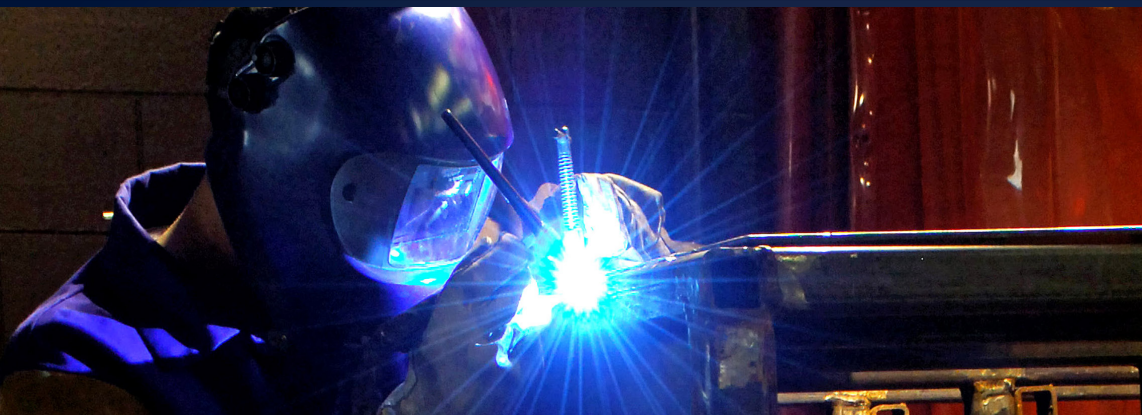

With our skilled staff, we will reduce your operational costs and improve your mean time between failure. We have proven technology to increase your efficiency and increase operational life of your equipment.

Let our experience reduce your risk, and save you time as well as money, and reduce disruptions to your production. We offer turnaround services in refineries, power plants, steel mills, paper mills, and many others. Call us anytime day or night 365 days a year and we will respond quickly to reduce your downtime. By combining our field service with our shop services you can eliminate the finger pointing and just get the job done right the first time.

Dependable Experience. Quality Workmanship.

With over 30 years experience, Stephens Mechanical serves the petro-chemical, pulp & paper, and power-generation industry - steam turbines, gas turbines, hydro power generation, and balance of plant equipment.

Stephens Mechanical specializes in field services for turbines, compressors, pumps, gearboxes, and industrial machinery. We have built our reputation in the industry through an unparalleled emphasis on safety and craft training. Today, we are one of the finest and most reputable providers of millwright and field machining services in the Western United States including: California, Nevada, Oregon, Arizona, Colorado, and Washington.

Who We Are

Convinced that great companies are built with great employees, we have made a firm commitment to our workforce and customers that has enabled us to grow even during industry downturns. We

strive to provide manpower and equipment that reflect the same high standard of quality you demand within your own organization.

What Sets Us Apart

At Stephens Mechanical, we provide quality service and enhanced productivity for our customers. We focus on a safe and productive workplace through complete and precise planning and professional execution. SMC is a quality and cost-effective alternative to OEMs for all of your industrial machinery needs. We pride ourselves on quality work from start to finish.
